

LearnTech Lab

## LEARNTECH LAB SERVICES FOR EDUCATION LEADERS

### CURATED HORIZON SCANNING

LearnTech Lab's Curated Horizon Scanning subscription service helps education leaders to stay informed and abreast of the emerging technologies, insights, and trends impacting the future of education and learning. Our service uses a combination of human curation and artificial intelligence to deliver high-precision updates to education leaders and their teams.

We offer a range of levels that give you and your leadership team on-demand access in several different mediums that are all accessible anytime, from anywhere.

## 1. Emerging Futures of Education Newsletter (Enhanced)

Our customised version uses a combination of artificial intelligence and human curation to deliver you information based on your priorities. Our annotated commentary draws connections and puts a spotlight on the content that is most significant for education professionals. Our enhanced newsletter is delivered to your inbox weekly.

## 2. Emerging Futures of Education Videos

We offer short, easy to digest, engaging video clips that unpack emerging insights, trends and the possible impacts of exponential technologies on school education. Our State of LearnTech videos are delivered to your inbox weekly.

## 3. Emerging Futures of Education Webinars

We partner with experts and thought leaders in the education technology and innovation space from Australia and overseas to deliver engaging, relevant and informative content in a live and interactive environment. Offered on a monthly basis, attendees have the opportunity to ask questions during the webinar and are also sent a link to a recording that they can access anywhere, at any time.

## 4. Horizon Scanning Briefings

We offer once per semester 60 minute briefings where we share an overview of current and emerging trends and insights on the state of Australian and global LearnTech and its impact on learning, teaching, and leading in education. Information garnered from our briefings will assist education leaders in developing Strategic Plans for their settings. They are delivered to groups of education leaders, in-person or via an on-line platform.

## 5. Education Leadership Roundtables

Our Education Leadership Roundtables are designed to inspire and inform school leaders, school system leaders, and education executives who are at the forefront of digital transformation initiatives in their schools or the wider school system. Our Roundtables provide you with an opportunity to share your ideas and opinions in a safe and collaborative environment (Chatham House rules apply). Each Roundtable features a session led by one of our expert partners. They are held once per semester and are available face-to-face or via an online platform.

## PERSONALISED ADVISORY & CONSULTING SERVICES

We also offer a range of advisory services customised to meet your individual needs.

### 1. In-person Executive Briefing

Our individualised briefings share an overview of current and emerging trends and insights on the state of Australian and global LearnTech and its potential impact on learning, teaching and leading as it applies to your school. Our briefings are designed to assist you in developing Strategic Plans for your individual school or department.

### 2. Futures Planning Tools and Frameworks

Our Futures Planning Tools and Frameworks session is designed to upskill leaders in their knowledge of tools and frameworks to help them consider and plan for an emerging future at a global level and identify the actions they can take at a local level to influence a preferred future.

### 3. Customised Horizon Scanning and Deep Dives

We tailor horizon scanning and analysis according to your needs including deep dives on themes related to education technology and innovation. Our team has deep connections in the K12 sector both in Australia and globally and brings a trustworthy voice to you in an ever-changing education sector.

Please contact us at [hello@learntechlab.com](mailto:hello@learntechlab.com) or on 0405 411 871 for pricing options.

## ABOUT LEARNTECH LAB

LearnTech Lab is a boutique advisory firm whose mission is to connect the ideas, people and businesses with the schools who are reimagining the future of education. We help school leaders, entrepreneurs, government and investors transform learning, teaching and leading by providing access to emerging technologies via a unique sandbox environment and through customised market intelligence that surfaces high-impact opportunities and informs strategic decision-making. Through our deep connections in the Australian and international K12 education technology and innovation ecosystems, our partnerships are transforming education for the learners, teachers and leaders of today to thrive in an exponential future.
